RHINO 4X4 EVOLUTION 3® FRONT BUMPER

The Evolution 3 Bumper will evolve your 4x4 vehicle into an aggressive off-road machine without compromising its stylish lines and aesthetics. This front replacement bumper is now available with several exciting features that will satisfy any off-roading adventurer. It is manufactured from 3mm and 5mm all-steel material to protect your engine's vitals. It boasts full winch compatibility and two snatch-rated recovery points, as well as a class-leading approach angle.

This bumper comes standard with a heavy-duty bash plate that continues all the way to the cross-member. Other brands charge a premium for this extra feature.

The Plug and Play LED fog lights are fully compatible with the existing electrics.

COLOUR OPTIONS

The Evolution 3 Bumper is zinc coated for corrosion protection and finished in a hard-wearing powder coat. Standard colour is matt black.

SAFETY

The Evolution 3 Bumper has passed many dynamic crash tests in Australia to ensure it adheres to the existing safety systems for example, air bags. Air bags must fire at the right time. The Evolution 3 Bumper is airbag compatible and certified.

AIRFLOW

Our bumpers have been tested to provide maximum airflow to all the necessary cooling parts of your engine.

INSTALLATION

The standard bumper on your vehicle gets removed completely and can be kept or sold. The factory window washer water bottle must be relocated to the engine bay, a smaller water bottle is provided in the kit.

OPTIONAL EXTRAS

- Colour coding
- Shackles
- Winch
- Spotlight mounting bar
- Spotlights

RHINO 4X4 ROCK SLIDERS

Solid 3mm material, provides maximum protection while maintaining great clearance. Powder coated matt black and includes high lift jacking points.
